Welcome to Southern Housing

Thank you for your interest in wanting to join Southern Housing's Audit & Risk Committee.

We are amongst the top ten largest social housing landlords in the country with a long history of commitment to supporting the communities our residents call home and investing in our homes and services so people can thrive.

Southern Housing was formed just over three years ago from the merger of Optivo and Southern Housing Group. Since that time, we have worked hard on the integration of our two associations and have achieved a lot, including the awarding of G1, C2 and V2 governance ratings by the Regulator of Social Housing and significant extra investment in our existing homes.

However, these are challenging times, and we need to do more. We are introducing our new corporate strategy for 2026-30, for which the Board has agreed three key goals:

- To deliver a repairs service that is highly rated by our residents and efficiently delivered by us, by 2027
- To provide smooth, professional and responsive services to our residents, by 2028
- To be an efficient and high performing resilient organisation that builds capacity for investment in building new social homes, by 2029.

We're keen to recruit two new independent members of our Audit & Risk Committee to complement the Committee Chair and other members of the Committee by bringing specialist expertise and insight.

Key qualities for the people we're looking for include:

EXPERIENCE

- Senior experience in risk and finance oversight within complex organisations
- Background in statutory external audit, internal audit, risk management or enterprise risk
- Experience operating at senior leadership level (e.g. CFO, CRO, Audit Partner)
- Exposure to complex operational environments such as manufacturing, infrastructure, property or similarly asset-heavy sectors.

SKILLS

- Strong understanding of risk frameworks, modelling and governance structures
- Ability to scrutinise financial statements, controls and assurance processes
- Capability to oversee risk across financial, operational, safety and cultural areas
- Strong analytical capability and strategic perspective.

ATTRIBUTES

- Strategic thinker able to consider risk across the whole organisation
- Comfortable providing constructive challenge and independent oversight
- Interest in the social purpose and resident focus of the housing sector.

BOARD EXPERIENCE

- It's not essential. Senior strategic experience and the ability to operate at board level are more important than prior board experience.

This is a key appointment for us. We're looking for Committee members who share our values and purpose and are collegiate in their leadership style.

If the above introduction to Southern Housing and the role is of interest to you, then we look forward to hearing from you.

Damien Régent

Board member and Chair of the Audit & Risk Committee

Our history and looking to the future

With roots stretching back to 1901, Southern Housing was formed from the merger of Southern Housing Group and Optivo in December 2022.

Today, Southern Housing owns and manages over 80,000 homes – almost half of which are in London, with the remainder in the South East, the Isle of Wight and the Midlands.

As we celebrate 125 years, we continue the legacy of our founders. Our charitable purpose remains to provide homes for those in housing need, now and long into the future.

We believe in listening to and engaging with the 167,000 people who live in our homes.

Southern Housing has a well-established resident governance structure covering all regions, overseen by a Resident Experience Committee, and supported by our Resident Scrutiny Panel. We're unique amongst large landlords in having four resident places on our main Board.

INVESTING IN EXISTING HOMES

At merger, the Board resolved to prioritise investment in existing homes. Since then, we've increased investment in repairs and maintenance by 31%. Whilst this has been necessary, it does mean less capacity for developing new homes. Additional development is restricted until we recover 100% EBITDA-MRI cash interest cover in 2029/30.

By amalgamating our legacy businesses at the point of merger we were able to commence integration immediately.

Integration has now completed. This has enabled our focus to shift to the transformation of processes, systems and services.

OUR PROGRESS AND GOALS

Eighteen months from merger we had our first regulatory inspection as a new organisation. We were delighted to recover the highest G1 grading for governance and maintained our V2 rating for financial viability. Southern Housing was one of the first registered providers to be given a consumer grading.

Our C2 grading was a fair reflection of progress in summer 2024. However, we're ambitious to achieve the highest C1 grading by our next regulatory inspection in 2028.

Given our constrained financial capacity and our focus on what matters most to residents, the Board have set three ambitious goals for the next three years:

- Firstly, we aim to deliver a repairs service that is highly rated by our residents and efficiently delivered by Southern Housing and our contractors by 2027. Our regulatory inspection confirmed what we already knew – that we need to improve our repairs service. Repairs and maintenance are the biggest drivers of resident satisfaction, the biggest source of complaints, the biggest area of failure demand and our biggest budget. We're therefore focusing our transformation resources on improving repairs and maintenance.
- Secondly, we're ambitious to achieve a C1 consumer grading by our next regulatory inspection. We know improving repairs and maintenance is one of the main drivers of the C rating. It will also improve complaint handling – which is the other major service area that needs to be improved. We're regarded as a leader for resident governance and engagement and we're confident by listening to and co-creating with residents, we will improve our Tenant Satisfaction Measures and be worthy of a C1 grading by 2028.
- Our third goal is to improve our financial strength. We'll drive £30 million of efficiencies out of our cost base by 2029. We'll do this by streamlining our business, focusing on the things that matter most to residents, and transforming our systems and processes to remove waste and improve resident satisfaction. Our goal is to achieve 100% EBITDA-MRI cash interest cover by 2029/30.

THE FUTURE

This is a challenging but exciting time for Southern Housing. Our three goals are clearly established within our Strategic Plan 2026-30: www.southernhousing.org.uk/strategicplan

If we maintain a relentless focus on our goals, continue to co-create with residents and colleagues, and ensure our transformation work is laser focused on the things that matter most, we will build the foundations for a new era of growth and opportunity from 2029 onwards.
